JOB SUMMARY

Mainline Engineering is looking for a creative, hardworking, responsible, and professionally enthusiastic Diesel Engine Mechanic to join our team.

KEY RESPONSIBILITIES

- ✓ Carry out servicing, maintenance, troubleshooting, and repair of diesel engines and machinery.
- ✓ Identify mechanical problems and provide effective solutions.
- ✓ Handle and identify diesel engine spare parts and components.
- ✓ Maintain proper records of repair and maintenance work.
- ✓ Use laptops and relevant software for diagnostics, documentation, and other work-related tasks.
- ✓ Communicate professionally with customers and team members.
- ✓ Perform duties responsibly and maintain a high standard of workmanship.

REQUIREMENTS

- ✓ Diploma in Mechanical Engineering from a recognized university.
- ✓ Minimum one year of experience as a Diesel Engine Mechanic, with an experience certificate from the previous employer.
- ✓ Good knowledge of diesel engines, machinery, and spare parts.
- ✓ Basic to good knowledge of using laptops and computer software.
- ✓ Good English communication and writing skills.
- ✓ Hardworking, creative, and willing to learn.
- ✓ Professional attitude with good teamwork and responsibility.
- ✓ Ability to work independently and handle tasks efficiently.
- ✓ Willing and able to travel frequently by boat and seaplane.
